SPEAKERS & TOPICS

STUMP THE TAX EXPERTS PANEL

This is a special 2-hour question and answer session with our unique panel of "Tax Experts" that includes all of our terrific speakers who have agreed to let us test their tax knowledge! Do you have a burning question that is driving you crazy because you can't find the answer on your own? Or, did you learn something in one of your classes that needs further explanation for you to understand the tax concept? Whatever the case, in your materials packet you will find a special "question" worksheet specifically for this session to fill out and turn in by 3:00 PM on Tuesday. Questions will only be taken from the floor if time permits.

Session #25 – 1 Federal & 1 CA Hour – General

FRANK ACUNA, ATTY & RUTH GODFREY, EA

706 OVERVIEW (TAX & LEGAL ISSUES)

An in-depth session exploring the tax and legal issues as well as preparation steps in preparing an Estate Tax Return. Learn when a 706 is required – 2009 – 2010 – 2011? What information do you need and where do you get it? How to get your client involved. Why title is important and why disclaimers may create more tax issues. When to use alternate valuation or special valuation and what the difference is. How to handle troublesome beneficiaries. Is there a difference between an Administrator and an Executor? What issues arise when spouses die together? What are all those 706 "schedules and attachments"? What are permissible Administrative Expenses and funeral expenses? How do you handle debts of the decedent? What if the surviving spouse isn't a U.S. Citizen or if there are foreign death taxes? Have we created a Generation Skipping Transfer Tax and, if so, what do we do? When is the tax due? What extensions to pay are available? We'll provide a handy checklist for you to use when a client dies and what to include in your retainer letter along with a "necessary documents" list to give to your client.

Session #13 - 4 Federal Hours – General to Intermediate

706 PENCIL TO PAPER WORKSHOP

This will be a guided 706 preparation workshop. You will be given a situation and then we'll do the actual 706 step-by-step. You will become familiar with all the schedules of a Form 706; learn what to put on each schedule and which schedules to complete first; learn how to handle previous transfers made by the decedent and what you need to do if a Form 709 hasn't been done. We'll work with valuation issues for real estate and securities, title issues, treatment of annuities and life insurance policies and other assets held by the decedent. We'll cover the Form 706 from beginning to end so that you'll have another tool to add to your professional toolbox.

Session #16 - 2 Federal Hours – General to Intermediate/Hands-On

BEANNA WHITLOCK, EA, CSA

ETHICS - IS THE PENALTY WORTH THE PRIDE?

In the US system of voluntary compliance, Americans are required to file "complete and accurate" tax returns. This session will focus on the responsibilities of income tax preparers and the ethical dilemmas they face. Real world examples will demonstrate the business of tax is not for dummies or cowards. Learn the importance of professional conduct and why your most important client is you!

Session #26 - 1 Federal & 1 CA Hour – Intermediate

THE INCREDIBLE LLC

A brief review of what we know about Limited Liability Companies followed by an in-depth review on liquidating federal tax classifications (using check-the-box to change how the LLC is taxed) without liquidating the LLC. Learn about recent attacks on LLC's and how the IRS and the courts are treating them. A comparison of creating an LLC in Nevada vs. California will be examined.

Session #15 – 3 Federal & 1 CA Hour – Advanced

CREDIT, CREDIT - DID YOU GET THE CREDIT?

This session examines a growing issue in return preparation, credits and how your taxpayer can utilize them. Included is an overview on Child, Adoption, Energy, Education, EITC and others. Is the credit for tax reduction or is it refundable and what about AMT? These questions will be answered and strategies offered to assist taxpayers to qualify and maximize these credits.

Session #9 - 2 Federal Hours - General

READY OR NOT – PAYROLL TAX AUDITS ARE HERE

Internal Revenue Service kicked off the National Research Program audits for payroll tax issues in November 2009, with 6,000 taxpayers to be audited over the next 3 years. Learn what the IRS is looking for and what you can do now to protect your clients. Discover the practitioner danger lurking in these audits and what you must do to avoid preparer penalty.

Session #3 - 2 Federal Hours – General to Intermediate

LINDA BECKETT, EA

GARBAGE IN - GARBAGE OUT

Do you know if your client has provided you with the correct information? Are you sure that the client has communicated to you the facts that will assist in preparing an accurate return? Have you ever thought that the information that you have in front of you doesn't make sense? This class will attempt to assist you in sorting the garbage into "recyclable", "green" and "waste". We will share ways to help you spot the garbage ("waste"), ways to sort through the garbage ("recyclable"), ways to get clean ("green") information for a more accurate return and informing the client on how to keep clean ("green"). We will focus on interview techniques, reading and matching up documents and financial statements, client communication, and reviewing the end results.

Session #8 - 1 Federal & 1 CA Hour – General

WHAT'S MY LINE?

When visiting the IRS Fresno Campus, it was discussed that one of the biggest problems the IRS faces is that tax return information is entered on the wrong line. This creates a multitude of CP2000 matching problems. Like the old game show – "What's My Line" – we will explore the Federal 1040 to find out if you know which line to show a document, supporting information or data. This exercise will result in a better understanding of the data behind the tax return, line by line. We will also discuss the CP2000 matching program, ways to respond, and how to prevent getting notices.

Session #11 - 2 Federal Hours – General

FRANK ACUNA, ATTY

BUSINESS SUCCESSION PLANNING

Business succession planning arises in a variety of ways. Will the business be sold to an outsider? Will an insider take over the business over time? What about emergencies, such as death, disability, debt or divorce? This two-hour overview will look at some of the most common issues surrounding succession planning, such as acquisition methods, valuation methods, common contract provisions, and tax reporting.
Session #21 - 1 Federal & 1 CA Hour – General to Intermediate

RUTH GODFREY, EA

CALIFORNIA DIFFERENCES

California will still not be in conformity with most federal provisions enacted after 2004 unless the 2010 legislature gets busy early in the year. We'll be discussing ongoing nonconformity issues including: pension legislation; RDP rules and same sex marriages; sale of residence rules; First Time Homebuyer provisions; §529 plans; and, HSA's. We'll also discuss the new Form 540; how California treats Ponzi losses; new (again) estimated tax rules; and anything that's newly out of conformity because of federal changes.
Session #1 – 2 CA Hours – General to Intermediate

L G BROOKS, BA, EA

S CORPORATIONS – NUTS & BOLTS

The goals and objectives of this session are to explain, examine and explore the legal & tax provisions pertaining to S Corporations and their related shareholders. We will explore and discuss the eligibility requirements related to S Corporations as well as the tax-related advantages and disadvantages of an S Corp election. Additionally, we will examine S Corp audit procedures and S Corp termination issues, which may occur inadvertently. Finally, we will review and perform interaction regarding several S Corp case studies to cover all of the elements discussed and explained in the actual presentation.
Session #6 - 3 Federal & 1 CA Hour – General to Intermediate

ADVANCED TAX RESEARCH TECHNIQUES

Advanced tax research usually involves more than providing a simple or complex answer to a unique or specific tax query. Any tax research engagement should provide professional, relative and efficient answers to client inquiries. In return the practitioner and/or the tax law firm should be appropriately compensated for the level of service provided. The best research project in the world is meaningless if the results are not understood by the client and/or are not effectively communicated to the client. The client must be able to comprehend the results of your findings to be of any worth or value to the client. It may be possible that your research engagements may become virtually worthless (financially speaking) should the client or taxpayer neither understand nor appreciate the results of the engagement. Therefore, the purpose of this presentation is to explore and document the critical elements of a tax research engagement, as well as to provide useful and practical guidelines related to effective tax research techniques.
Session #12 - 1 Federal & 1 CA Hour – Intermediate to Advanced

INTRODUCTION TO AUDITS – "THE EXAMINATION"

The purpose of this session is to enhance your audit or examination techniques when representing your client before the Examination Division of the Internal Revenue Service (IRS) and/or any other similar taxing authorities. We will explore and discuss the new random audit programs and procedures of the IRS, more specifically, the National Research Program (NRP). We will explore procedural differences between the two major examination functions of the IRS: the Field Audit and the Office Audit. We will also discuss and explore possible resources that may be utilized during the audit or exam process. Anticipated audit procedures and resources will be discussed in detail based upon the IRS new audit initiatives. The audit/examination process has changed and is constantly evolving. This course is designed to prepare you for the new procedures and the new audit/exam personnel you may encounter.
Session #18 - 2 Federal Hours – General to Intermediate

THE IRS APPEALS FUNCTION

The IRS resolves thousands of post examination or audit cases each year upon appeal. The practitioner should not be intimidated regarding the appeal of a taxpayer's case. Appeal Offices are required to evaluate the issues of a tax case with a new view (denovo). The Appeals Officer is required to consider the hazards of litigation and has more flexibility in settling your case than a Revenue Agent or a Tax Compliance officer. The goal of this presentation is to explain the "Mission of the Appeals Office" and how the practitioner should navigate the tax case process within the IRS Appellate Level. Fundamental issues such as the authority of Appeal Officers and the importance of "jurisdiction" as it relates to the appellate process are discussed. Circumstances are discussed regarding when it is appropriate to or when the taxpayer has a right to request an appeal. We also go further and explore the provisions of when it is recommended not to file an appeal on behalf of the taxpayer. This presentation also explores and demonstrates the "Components of a Protest", Settlement and Closing Agreement process, and more importantly, the post-appeals process (docketed vs. non-docketed).
Session #24 - 2 Federal Hours – General to Intermediate

DAVID EASTIS, CRTP

PARTNERSHIPS – HEALING THE TAX PREPARER'S HEADACHE

Learn the basics of putting together a Partnership return Form 1065 and Form 565. We will cover how to establish the basis for each partner, how to interview a new partnership client, and how to begin and/or end a partnership.
Session #7 - 1 Federal & 1 CA Hour - General

PREACHERS, TEACHERS & OTHER SUCH TAX CREATURES

There are unique challenges and rules in preparing a tax return for preachers, teachers, and other specialized fields of service and educational professionals. We will explore the Federal and State regulations regarding these select clients, how to interview new clients with these professions and how to develop checklists of items needed for the interview.
Session #17 - 1 Federal & 1 CA Hour – General to Intermediate

QUICKBOOKS & PAYROLL

How do we travel through the maze of Quickbooks and Payroll in order to fill out our tax returns? This session will introduce you to Quickbooks 2010 Payroll (Accountants Edition) and how to fill out Payroll Tax Forms and create Payroll reports.
Session #19 - 1 Federal & 1 CA Hour – General to Intermediate

EUGENE OSTERMILLER, EA

INTRODUCTION TO COLLECTIONS

In this down economy, many people owe the IRS money that they can't pay. We will go over the options for payment plans, O.I.C.'s, and the currently not collectable.

Session #23 – 2 Federal Hours – General to Intermediate

SALE OF BUSINESS ASSETS

We will discuss what you must do when you sell individual business use assets and when you buy or sell a whole business. Bring your calculator and pencil as we will do a hands-on problem and go line-by-line through the 4797.

Session #5 – 3 Federal & 1 CA Hours – Intermediate/ Hands-On

GARY QUACKENBUSH, ESQ.

IS IT TIME TO FILE BANKRUPTCY?

Bankruptcy is all about timing. If a bankruptcy petition is filed too soon, certain debts, including taxes, may not be discharged. If a bankruptcy petition is filed too late, there may be debt cancellation issues or foreclosure issues to deal with, or you could lose the opportunity to strip liens from real property. Poor timing could lead to greater problems later, maybe years later. Proper timing, which may include waiting for months or even years or on the other hand, rushing to file immediately, could have tremendous impact on the outcome of the case. We will explore different case scenarios to help determine when it is time to file bankruptcy or when a bankruptcy should be avoided. You will learn when "it's time" to file Bankruptcy and the effects of timing on certain debts and taxes. We will explore how the new bankruptcy laws affect liens on real property and modifications of real estate loans.

Session #4 - 3 Federal & 1 CA Hours – Intermediate

ESTATE PLANNING AND ADMINISTRATION
After the Client Dies

The phone call is never expected, but surely will come. A long-time client calls and says that his spouse has passed away…or the child of a client calls to report the passing of her parents. What to do? Were they prepared? Was their estate in order? We will discuss what to do, how to respond, who to talk to and what to say. The California probate code governs all property of deceased persons whether or not the property is held in a Living Trust. The code states what actions need to be taken, who needs to perform the actions and who needs to be notified. The Personal Representative, Executor, or Trustee of the deceased's estate has a big job to do. The job must be done correctly and timely. We will explore how to avert the disaster of having a creditor demand money from an Estate or Trust months or years after we "thought-it-was-all-over". We will discuss how to handle beneficiaries, even greedy ones (hard to believe, I know). Trustees and Executors have a unique job to do and many do it wrong, exposing themselves to personal liability. Let's figure out how to do it right.
